### *ABOUT THE COURSE*

This course is the structured examination of a person's verbatim words for indicators of truthfulness and deception. It is an investigative tool which helps determine a subject's indicators of deception. Just as in an interview setting, we have "tells" that give us away in writing. Wouldn't you like to be able to read a written statement or listen to a 911 call and quickly identify whether the person making the statement was being truthful? That's what ISA will teach you. It gives you tools to prioritize your cases and increase your clearances. This program is used by the FBI and many other law enforcement agencies with great success. It has been refined over decades of development and thousands of statements.
