ABOUT THE COURSE

This program is taught from a hands-on point of view from investigators and forensic practitioners active in the field. The class is intended for law enforcement officers, crime scene investigators, evidence technicians and crime laboratory personnel involved in the investigation, identification, collection and preservation of evidence at violent crime scenes. The objective is to provide information needed to ensure critical pieces of evidence will be collected, fewer cases will be jeopardized by mishandled evidence, and more cases will be solved through the proper use of these advanced investigative techniques. Participants will have the opportunity to apply newly acquired knowledge with practical exercises. **PREREQUISITE:** None.

ABOUT THE INSTRUCTORS
